COUNTY ORCHARDS BEING INSPECTED

Twenty-Five Students From State College Conducted through the Adams County Fruit Belt by the Fruit Growers' Association.

For the purpose of securing practical information along horticultural lines with a special reference to apple growing, twenty-five gentlemen from State College, who are making a specialty of horticulture in connection with the regular agricultural course of that institution are making a trip through the Adams County fruit belt to study cultural methods.

The party is traveling under the very able direction of Prof. R. L. Watts, of the Chair of Horticulture and his assistant Prof. Wright, and is being conducted by members of the Fruit Growers' Association of Adams County.

The students arrived at Bendersville Wednesday forenoon and spent the balance of the day inspecting orchards of R. M. Eldon, President and J. W. Prickett, Secretary of the Association, also orchards of Dr. Stover and others in the vicinity. Wednesday evening the party were the guests of the Fruit Growers' Association, the regular date for their 68th meeting having been anticipated a few days for that purpose. The evening was devoted to an informal round table discussion of Adams County orchard methods, followed by a reception to enable members of the Association to meet the visitors socially. President Eldon extended a hearty welcome to the College men and explained the object of the Association and the work it is doing, expressing gratification that Adams County should have been chosen as a good field for examination.

In response Prof. Watts, seconded by Prof. Wright said many complimentary things regarding this fruit belt and compared it very favorably with the many noted fruit sections of the west which it has been their pleasure to visit, their remarks being interspersed with some timely suggestions. Prof. Watts referred to the agricultural and horticultural work being done at State College, calling especial attention to the wonderful increase of interest in these subjects within the past few years, citing the fact that more than one-third of the present enrollment of twelve hundred students are taking an agricultural course. As one very excellent reason for this interest in agricultural education, he referred to the fact that every agricultural graduate from State College in recent years who desired to do so, has been placed in a profitable position, at salaries averaging \$900 a year, being equal in this respect to almost any profession a young man could choose and very much better than many.

Thursday the party inspected ten or fifteen of the principal orchards between the towns of Bendersville, Biglerville, Arendtsville and Cashtown.

In making this inspection trip possible the Fruit Growers' Association of Adams County have done a great service for the fruit interest. The gentlemen who are here come from widely separated points throughout the state and will thus disseminate information regarding the Adams County fruit belt which cannot fail to be of value. A number of inquiries have already been received by the Secretary of the Association regarding Adams County apple land, several prospective buyers having visited this section personally. In order to reply intelligently to inquiries of this kind, an invitation is extended to all who have land for sale suitable for fruit growing, to send full information, including price to Corresponding Secretary of the Fruit Growers' Association of Adams County, Flora Dale, Pa.

SURPRISE PARTY

York Springs, Oct. 8--A birthday surprise party was given at the home of Mr. and Mrs. Edwin Asper on Wednesday evening, Oct. 6th, in honor of their daughter Chloee's birthday. Those present were: Mr. and Mrs. Edwin Asper, Mr. and Mrs. John Brame, Mr. and Mrs. Cletus Bosserman, Misses Stella Jobe, Theda Hendricka, Zora Smith, Maud Jobe, Ethel Pottorff, Amy Asper, Ruth Crist, Zora McCans, Linnie Bowers, Blanche Weidner, Stella Smith, Grace Trimmer, Lula Stallsmith, Grace Weigle, Mada Kline, Grace Slaybaugh, Blanche Slaybaugh, Lila Kinnel, Grace Hikes, Chloee Asper, Reta Smith, Hope Brame, Grace Gochenour, Grace, Romaine and Ella Besserman, Messrs. Harry Smith, Charles Jobe, Edgar Smith, William Zepp, Charles Dentler, John Zepp, Guy Tanager, Curtis Asper, Harry McCans, Harry Asper, Gilbert Miller, Walter Dentler, Stuart Kennedy, William Weidner, Walter Weigle, Leslie Heikes, Jesse Slaybaugh, Dale Kline, Roy Asper. The evening was spent in playing various games and at a late hour all were invited to the dining room where refreshments were served. A Guest.

FAST WORK

Biglerville, Oct. 8--Harry W. Fohl, of this place, has established a new record in crossing work. For the Borough Council of which he is a member Mr. Fohl laid a new crossing on Gettysburg street in front of the Wampler store. It was found later that the crossing was misplaced and would have to be moved. Nothing daunted, the energetic borough father got to work and in a short time had his portable crossing removed some distance away and placed in position for use, to the satisfaction of citizens and borough officials. The work of laying the crossing, tearing it up and relaying it occupied only a few hours' time.

BIG CORN

East Berlin, Oct. 8--People in this section are busy with their corn cutting and husking. The largest ear reported was found by Frank Altland and measured 15 inches. M. Rebert was a close second having one measuring 14 inches. Corn of that size, however, is very scarce.

WEDDING BELLS RING MERRILY

Reuel Diller, Former Editor and Publisher of the Fairfield Herald, Marries Hanover Woman. Other Weddings.

DILLER-SNYDER

Reuel Diller, of Philadelphia, formerly editor and publisher of the Fairfield Herald was united in marriage on Wednesday evening to Miss Ida Snyder, of Hanover. The ceremony took place at the parsonage of St. Matthew's Lutheran church in Hanover and was performed by Rev. A. M. Heilmann.

Mr. Diller for many years has been engaged in the printing business. His home is in York Springs but he is well known all over the county, his newspaper work bringing him into contact with many people. When his plant at Fairfield burned down several months ago he transferred his subscription list to the Adams County News and later decided not to revive the Herald. He is now working in Philadelphia as a linotype operator.

STERNER-STAUD

Albert Sterner, of Abbotstown, and Miss Annie V. Staub, a daughter of Mr. and Mrs. John Staub, of New Baltimore, were united in marriage Sunday, Oct. 3d, by Rev. George N. Lauffer, pastor of the Lutheran Churches of New Oxford and McSherrystown.

IMPROVEMENTS AT PARK

Littlestown, Oct. 8--The Hanover and McSherrystown Street Railway has just completed the laying of a 200 foot siding at Witmer's Park, which will prove a great convenience in the handling of the cars at this resort during the Summer season. Among other improvements which will be made next Summer will be a commodious platform with steps running the entire length of the same. The single steps leading from the bank to the park were a great inconvenience to the large crowds which patronized the resort heretofore.

DIVORCES ON THE INCREASE

U. S. Report Says Number Grows Every Five Years.

945,625 IN TWENTY YEARS

Weddings in the Same Period, From 1887 to 1907, Were 12,832,044—West Has Higher Percentage of Unhappy Marriages Than the East.

Washington, Oct. 8.—The census bureau has published a report on marriage and divorce. The investigation of the subject was undertaken by direction of congress, and grew out of a conference in this city between representatives of various religious denominations. The investigation has extended over a period of nearly five years.

"Apparently the divorce rate, like the velocity of a falling body, is constantly increased," says the report, "and it is impossible to determine statistically from available data just what the results would be if the rate reached at any particular time remained constant; in other words, no statistics bearing on the question of the duration of marriages terminated by divorce have been obtained that accurately represent present conditions or conditions at any particular period, for the conditions are not static, but dynamic."

The statistics cover a period from 1887 to the end of 1906, and the total number of marriages recorded was 12,832,044.

The investigation showed that in the twenty years covered the number of divorces granted was 945,625.

In the twenty years from 1887 to 1886 the number was about 328,716, hardly more than one-third of the number recorded in the second twenty years. The report says that each successive five-year period since 1887 has witnessed a marked increase in the number of divorces.

In 1906 the highest divorce rate per 100,000 estimated population (168) was reported from the western division—a rate which was more than four times that reported from the north Atlantic division (41) and almost four times that reported from the south Atlantic (43). The rate for the north central division (108) was almost two and two-thirds times that for the north Atlantic, while that for the south central (118) was two and three-fourths times that for the south Atlantic. Broadly speaking, the divorce rate increases as one goes westward.

5034 Divorces in Year in Ohio.
 Columbus, O., Oct. 8.—The Ohio courts divorced 5034 couples during the year ending June 30, according to information filed with the secretary of state by the probate courts of the state.

IN DRY ALABAMA

Those Who Buy Liquor Must Tell Where They Got It.

Montgomery, Ala., Oct. 8.—George G. Miles, head of the Law and Order league, says that prominent men who have been buying liquors will have to tell where they got them or perjure themselves at the present session of the grand jury.

"I know that liquors are being sold in violation of the law," said Mr. Miles, "and I am getting letters every day telling me the places of sale and the names of men who are going in and out."

Some sensational results are anticipated.

AUTO SAVES BOY'S LIFE

Father Races Forty-one Miles to Have Son's Leg Amputated.

Wilmington, Del., Oct. 8.—Dr. William Jacobs, of Millington, Md., matched his big automobile in a race of forty-one miles to a hospital in this city to save his son's life. The boy had been run over by a heavy wagon and his leg to badly crushed that the father decided the only hope lay in immediate amputation, so he placed him in his automobile and sped for Wilmington. The operation was performed successfully at the Delaware hospital immediately after the arrival here. It is now believed that the boy will recover.

Kills 750,000 Prairie Dogs.

Kansas City, Oct. 8.—More than 750,000 prairie dogs have been killed by J. W. Holman, the officially recognized United States government poisoner of the pests in the southwestern states, during the last eight months. The government pays 1 1/2 cents a head for killing the dogs.

Died 20,000 Years Ago.

Paris, Oct. 8.—A fossil human skeleton has been discovered at Ferrassie, department of Dordogne, in the stratum of the lower middle post tertiary period, which dates back at least 20,000 years. This is the second discovery of the kind in France within a year.

Mormon Leaves 4 Wives, 36 Children
 Salt Lake City, Oct. 8.—A. Milton Mussar, assistant historian of the Mormon church, and one of the early pioneers of Utah, is dead. He had four wives and was father of thirty-six children. He was seventy-nine years old.

TORTURER, THEY CALL HER

Children Charge Woman With Many Cruelties to Them.

Camden, N. J., Oct. 8.—Charged with having poured scalding water on the hands of the three children of John Harper, for whom she is housekeeper, because they had eaten pie, Amanda Rorer, of Magnolia, was arrested. Agents of the New Jersey S. P. C. C. assert Mrs. Rorer has practiced terrible cruelties upon the children, who range in years from five to twelve. Neighbors of the woman say that a few days ago the children ran into the street, shrieking in pain and showing their scalded hands. The hands will be scarred for life.

When the woman was taken from her home she was followed by women and children, who hurled imprecations at her. She retorted defiantly.

GUARDING THE PRESIDENTS

Secret Service Chiefs Discuss Precautions of Taft-Diaz Meeting.

El Paso, Tex., Oct. 8.—Police precautions for safeguarding President Taft and President Diaz at their meeting here Oct. 16, were discussed by John Wilkie, chief of the United States secret service, and Colonel Imel Zuniga, chief of the Mexican secret service.

The carriage of President Diaz and the silver plate from the castle at Chapultepec which will be used at the Taft-Diaz banquet has arrived.

AWAITS HUSBAND'S HANGING TO WED

Condemned Man Gives Couple His Blessing; Leaves Wife \$1200.

Wilkes-Barre, Pa., Oct. 8.—Repentant and sorry that he deserted her, Stanley Nazarko, who is to be hanged here next Thursday, made his will, leaving \$1200, all he possessed, to the wife whom he deserted in Poland.

When their two children died she came to this country to search for him. She found him in jail for the murder of his common law wife.

She settled in Yonkers and is now engaged to marry a young man there when her husband dies. Recently the two visited him here and he gave them his blessing and promised his wife he would leave her all he had and hoped it would make her happy.

CHICAGO NEEDS THE MONEY

Salaries of All Officials to Be Cut 10 Per Cent to Make Ends Meet.

Chicago, Oct. 8.—A cut of 10 per cent in salaries of all officials and employees of this city, from Mayor Busse's

MAYOR BUSSE OF CHICAGO.

\$18,000 down to the lowest laborer, has been agreed upon by the mayor and department heads, it was learned, for next year.

This drastic measure was made necessary by the simple fact that Chicago has not money enough to maintain the payroll at its normal level. The payroll last year approximated \$15,000,000. The cut before becoming effective must be sanctioned by the city council, where a big fight against it is expected.

AMELIA RIVES' MOTHER DIES

Authorless, Now Princess Troubetzkoy, Loses Parent in Virginia.

Richmond, Va., Oct. 8.—Mrs. Alfred Langdon Rives, mother of Princess Troubetzkoy (Amelia Rives, the novelist), died at her home, Castle Hill, Albemarle county, after a long illness. Mrs. Rives was a Miss MacMurdo, of this city.

Denies He Is Dead.

Harrisburg, Pa., Oct. 8.—A local paper published a report of the death of Dan Haller, a picturesque and popular negro, who is a laborer, a periodical tipstaff at criminal court and a pathetic local preacher. Scarcely thirty minutes had elapsed until a "friend" read the printed account to Dan. "It is," said Dan, with laborious dignity, "an entirely false accusation."

Alleged Counterfeiter Arrested.

Hazleton, Pa., Oct. 8.—A well dressed Italian, who refused to give his name, was arrested at West Hazleton, charged with passing \$5 counterfeit bills. During the past few weeks considerable counterfeit money has been circulated in this region.

WORLD'S SERIES OPENS TODAY

Detroit and Pittsburg Playing in Smoky City.

35,000 FANS SEE CONTEST

Mullin and Adams Opposing Pitchers in First Game For World's Championship—Betting is 2 to 1 on Pittsburg.

Pittsburg, Oct. 8.—Detroit, the American League champions, and Pittsburg, the winner of the National League pennant, met here today in the opening game of the series which will decide the base ball championship of the world for 1909. It will be Detroit's third attempt in as many years to win the greatest honors in organized

HUGHIE JENNINGS, Manager of the Detroit Club.

base ball, as Hughie Jennings' champions have been defeated by the Chicago Nationals in the last two world's series. Pittsburg has not had an opportunity of contesting for the world's championship since 1903, when it won the National League pennant and was defeated by the Boston Americans in the big series.

Every available inch of space in the grandstand and bleachers is occupied, and fully 35,000 persons were present when Umpire O'Loughlin called "play ball." George Mullin is doing the twirling for Detroit, with Schmidt at the receiving end. For Pittsburg, Charles Adams is on the slab and Gibson is doing the backstopping.

The game promises to be a hard fought one, as both teams are determined to win the opening game, as the winner of the first engagement in the last four world's series has captured the championship.

Frank O'Loughlin, of the American League, and J. E. Johnston, of the National League, are the umpires.

The regular lineup of both teams were on the field, and the team that loses will have few excuses to offer as every man is in excellent condition. Ticket scalping was notable by its absence this year, and only a few scattered sales of tickets at advanced prices have been reported. Chairman Garry Herrmann, of the National commission, said that with the co-operation of the Pittsburg club and the city authorities the commission had been able to reduce the scalping evil to a minimum.

The prevailing odds are 2 to 1, with Pittsburg the favorite, but little betting is being done because of the absence of Detroit money. Many wagers are being made that Hans Wagner will outlast Ty Cobb, and this is considered an even money proposition.

ACCUSES HER HUSBAND

Wife, in Prison, Charges Him With Daughter's Death.

Hartford City, Ind., Oct. 8.—One of the greatest sensations this city has ever experienced was sprung when Attorney J. A. Hindman, on behalf of Mrs. Rae Anderman Krauss, now serving a life sentence in the women's prison for murder, entered a cross complaint to the divorce suit filed by William R. Krauss, directly charging him with poisoning his own daughter, Crystal, on Aug. 2, 1904.

The confession of guilt on which Mrs. Krauss was sentenced she now brands as false, and declares it was written by her husband. She charges that he not only poisoned his daughter, but drew up the alleged confession which she signed, and that he agreed to get a pardon for her at the end of two years.

WICKERSHAM'S TRUST BILL

Attorney General Believes Corporations Will Accept Federal Regulation.

Washington, Oct. 8.—Attorney General Wickersham is working out a draft of a bill to be used as a basis for a national incorporation act. This bill, which largely meets his views as to solving the trust problem, has been the subject of conference between himself and other administration officials. Mr. Wickersham said that he believed large concerns would accept federal regulation. He would not give any of the details of the plan.

BOY TAKES LIFE TERM TO SAVE HIS MOTHER

Declares His Guilt at Her Trial For Killing Husband.

Sydney, Neb., Oct. 8.—Anton Krupnick was a wealthy farmer, living a few miles from Sydney. On the night of June 29 he arose from his bed, got a drink of water and sat down at the kitchen table. While sitting there a bullet from a rifle was fired into his right temple, producing almost instant death.

Mrs. Krupnick telephoned the sheriff here that robbers had entered the house, stolen \$700 and then killed her husband. The money and the rifle were found, wrapped in Mrs. Krupnick's apron, near the stable. She was arrested, charged with murder.

Thursday in court Andrew, her fourteen-year-old son, testified it was he, and not his mother, who shot his father. After the boy was sentenced to imprisonment for life the case against the mother was dismissed. Then the boy told the sheriff that he was not guilty, notwithstanding his "confession."

SICK; KILLS HIMSELF

Made His Own Coffin Two Months Ago.

Toano, Va., Oct. 8.—Summers Strivers, a Norwegian, was found in the woods near his home with a bullet wound in his head. The man had been in ill health for some time, and it is supposed to have been the cause of the suicide.

About two months ago Strivers made his own coffin and requested that he be buried in it.

To Mark Jackson's Birthplace.

Charlotte, N. C., Oct. 8.—The Congress of the North Carolina Daughters of the American Revolution decided to place a granite marker at the birthplace of Andrew Jackson in Union county, N. C. A \$50,000 monument, it is proposed, will follow the marker within a few years.

90 Miles a Joy Ride, Say Officers.

DAIRY WISDOM.

Attention to Details Sure to Bring the Best Results.

Give the dairy animals a good sun bath each day.

The stinky feeder cheats himself as well as the cow.

Oilmeal is good for the cows. It will prove a pay ration.

Insufficient feed and poor shelter will ruin the most promising heifer.

Fresh, clean water is important with every animal on the farm in the summer time, but above all others with the cows.

A sour feed pail has wrought havoc among the calves on the farm. The time spent in scalding the pails is well spent.

Pasture the cows at night and keep in the barn during the heat of the day. Needless to say the barn should be screened.

Garget, or congested udder, can be generally relieved by hot applications and vigorous rubbing and kneading of the affected part.

As compared with the old pan method of raising cream, the separator is as far ahead of the old method as the thrasher is ahead of the old flail method of thrashing grain.

No trees in the pasture? Then make shade for the cows by putting up some posts and throwing over them a thatched roof. It is a shame to keep cows under the hot rays of the sun all day.

The ticks on cattle can be got rid of by going over the animals with a sponge moistened in crude petroleum. Go over again in about two weeks, when the eggs have hatched a new brood.

A certain retired merchant of Pittsburgh is, in the good old phrase, as tight as wax, but has a passion to be considered a "spender" and good liver, never neglecting an opportunity to refer to his "wine cellar," etc. A short while ago he snared a well known clubman and had him at his house for dinner. A bottle of sherry was produced with considerable ostentation and the glasses were filled. The host held his to the light, then drank and snatched his lips.

"What do you think of that, hey?" he suggested.

"Why—er—very good," the guest commented, setting his glass upon the table. "But, I say, old man," he added in a confidential tone, "I know a place where you can get wine even cheaper than this!"—Brooklyn Life.

"Not Expecting a Flood."

An old lady recently bargained with a cabman standing outside Colchester railway station to take her into the town. The sum being agreed upon, the dame returned into the station and soon reappeared with two parrots in cages, which she handed up to the cabman. Again she journeyed to the platform and brought out two cats. A third trip she made, bringing back a daintily dressed fox terrier, and a fourth expedition was interrupted by cabbie exclaiming:

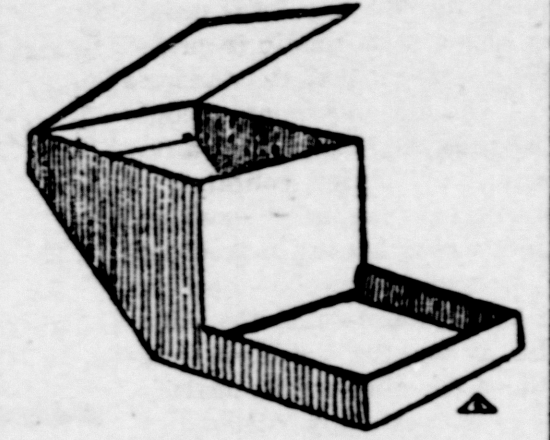

"Beggins' your pardon, ma'am, but you ain't expectin' a flood, I 'ope?"

"Dear me, no," was the reply. "Whatever made you ask that question?"

"Oh, it's all right, ma'am," said Jehu. "I thought I'd ask, cos I ain't certain as 'ow my horse can swim, and I fancied by the look of your luggage that you were a-takin' my keb for a Noah's ark!"—London Answers.

Ringbone Remedy.
Here is a spavin and ringbone remedy recommended by a noted veterinarian: Turpentine, three-quarters of a pint; wood alcohol, three-quarters of a pint; tincture of iodine, three-quarters of a pint; camphor gum, six ounces; crude petroleum, one and one-half ounces; oil of thyme, one-half ounce. Cut the camphor into small pieces and dissolve it in the alcohol and turpentine mixed. Then mix in the other ingredients and shake thoroughly. Before applying wash the parts well with strong soapuds, taking care to wash off the hair and rub the remedy in for fifteen minutes every other day. For spavin rub the same time every day.

Feeding Hopper For Horse.
A practical farmer with a mechanical turn says: If your horse has the habit of bolting his feed you can remedy it by making a self feeder on his feed box. The accompanying drawing shows how a feeder may be made similar to a poultry feed hopper. The contrivance may be made of inch boards large enough to hold one feed.

SELF FEEDER FOR HORSE.

The horse can get the grain only in small quantities and so cannot eat more rapidly than he should. The bottom must be made with enough slant to insure the feed coming out in the trough.

THE SHEPHERD

Pumpkin seeds have always been a safe and effective home remedy for expelling worms from sheep. Even tapeworms can be got rid of by them. The seed containing a special element which is fatal to them.

Sheep Destroy Weeds.

One great value of sheep on the farm is that they destroy brush and sprouts and reduce the crop of weeds. It will almost pay a farmer to keep a small flock of sheep simply to keep down underbrush vegetation.

Silage a Valuable Food.

Silage is fed to sheep on many farms. When well preserved it is relished by animals and affords a valuable succulent food. From three to four pounds per head daily is about as much as experienced sheepmen care to feed. Fed in larger quantities or if too acid it is liable to cause serious indigestion.

Rape For Feed.

The time will soon come on the majority of well managed farms maintaining sheep when the flock will be turned from the regular pastures to rape fields or patches. The flock owner who has never before given his sheep access to rape need not feel alarmed over the prospect of the change, for, as in the handling of all kinds of farm stock, if common sense be exercised good results can safely be expected.

An Improvement Over Nature.

It should be remembered that the sheep is in a sense an artificial animal. If Nature were allowed her way it is doubtful if the sheep would grow as heavy a fleece as it does now, but by our methods of breeding and improving we have increased the length of the fiber and at the same time made a fleece more dense and compact. These facts should be taken into consideration by the flock owner who would at all times manage his flock to the best advantage.

Owners of telephone, telegraph and power transmission companies in some sections of the country are reporting considerable damage to poles from the attacks of the common red headed woodpecker, which, with the gradual decrease in number of trees, has come to look upon the poles as a legitimate place for the building of a nest. The excavation for the nest, which is usually three inches in diameter and five or six inches deep, not only weakens the pole by so much, but the nest becomes a point where the rotting process sets in. Attempts which have been made to stop the work of the birds by filling the nest with stones has made a bad matter worse, as they usually proceed to excavate another nest adjacent to the old one and thus enlarge the cavity. A soaking of the poles in creosote has proved quite effective, but this involves a larger expense than most companies are at present willing to stand.

BALLOON VOYAGE ACROSS THE ALPS

Edgar Mix Tells of His Thrilling Journey.

ASCENDED THREE MILES

Passage Over Mountains Was Made in a Dense Fog, With the Basket Frequently Crashing Through the Tree Tops.

Paris, Oct. 8.—Edward W. Mix, of Columbus, O., the winner of the international balloon race for the Gordon Bennett trophy, which started from Zurich Sunday, has sent the following account of his memorable voyage. His dispatch is dated Warsaw:

"Leaving Zurich Sunday at 3.57 p. m., we were able to recognize our route only as far as Constance. Thence to the finish the weather was so thick that direction could only be determined by compass. During Sunday night the balloon, in a drenching rain, sometimes seemed to be at a complete standstill. We ascended and descended in search of better currents of air, without appreciable results. By 4 o'clock in the morning half of our ballast had been used.

Thrilling Passage Through Alps.

"The passage of the Bavarian Alps through rain and clouds was thrilling. Once we swooped down the mountain side with frightful velocity, plunging into a chasm of fog which seemed bottomless. It was as if the earth had opened to swallow us up. The basket several times crashed through the tree tops. After two hours we emerged from the valley and got a north-easterly slant of wind.

"When clear of the mountains we moved at a lively rate. The guide rope dragged over farm houses, breaking tiles and chimneys. The peasants rushed out with cries and imprecations.

"We then found that the guide rope had become unraveled and hoisted it into the basket for repairs, which were most difficult, as we were at the same time working hard with the blower to prevent the balloon from rising. A few hours later we recognized several villages and then the town of Konigsstadt. We sighted a balloon to the eastward, with peasants hanging on to the guide rope.

"After passing over Konigsstadt, which cost three sacks of ballast, we rose through the clouds to an altitude of 15,000 feet, and saw above the clouds a balloon to the north, about 350 feet higher. We began to descend at 1.40 p. m., emerging from the clouds about 1300 feet above the town of Waldenburgh, and were obliged to petition eleven sacks of ballast and half of our provisions to keep clear of the roofs, but as it was, the guide rope dragged over the wire of the fortress and railroad station, creating consternation among the yelling population.

"We rose again to 2800 metres near Breslau, throwing overboard the life savers, mattresses and the remainder of our provisions. Gradually we continued to descend after that altitude until 6 o'clock in the evening. With good equilibrium we managed to keep aloft until 3 o'clock Tuesday morning without expenditure of ballast, of which as a matter of fact there was not an ounce left.

Wedged in Pine Trees.

"The balloon landed and became wedged between pine trees in the forest of Gustavo. We waited until 6.30 before deflating and then searched for help. We found peasants, one of whom had been in America and spoke a little English. With their aid we loaded the balloon on carts. While this was in progress a forest guard wantonly killed one of the peasant's dogs, arousing great indignation. We accompanied the owner to the proprietor of the estate to lodge a complaint, and found a peasant woman speaking a little French, who registered an entry of our landing in the log-book. While the peasants were conveying the balloon to Ostrolenko the women gave us a primitive meal of potatoes and water. "On our arrival at Ostrolenko we were stopped by the police, who took us, together with the balloon, to the station, where we remained until instructions were received from St. Petersburg for our release. We were treated excellently."

PRESIDENT ROUGHING IT

Mr. Taft Enjoys First Day's Trip in Yosemite Valley.

Wawona, Cal., Oct. 8.—An all-day page ride over thirty-four miles of mountain road brought President Taft to this little Sierra retreat, eight miles from the entrance to the Mariposa grove of big trees.

The day ride from El Portal included glimpses of Yosemite valley from Inspiration and Artists Points, a pursuit of the tumbling waters of the Merced river into the valley floor and a winding, narrow climb to a height of 7000 feet at the crest of mountains which shut in the wonders of the Yosemite.

News that mountain lions were infesting the park held out hope of adventure for a time, but not even the tracks of one was seen on the road. The president declared that this was one of the most enjoyable days of his life. It was the first glimpse of the Yosemite, and the impressive surroundings, the bracing mountain air, the freedom from speechmaking all contributed to the pleasure of the first day of roughing it in the Sierras.

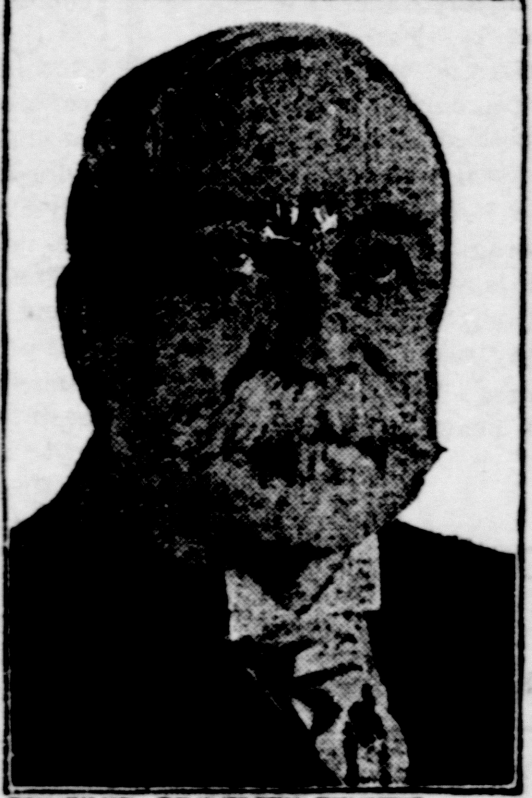

DEWEY SAYS OUR NAVY IS NOT A BLUFF

Would Give Good Account of Itself in Case of War.

Washington, Oct. 8.—Defending, with characteristic vigor, the American navy, Admiral George Dewey asserted that not only is our navy not a "bluff," but he is confident that it would give a good account of itself should war ever come.

The admiral's remarks were called forth by a statement attributed to former Representative Landis, of Indiana, who, in a recent speech at Cincinnati, O., on advocating ship subsidy, is reported to have said that "those Americans who are informed consider our navy a 'bluff.'"

Declaring that he saw no war clouds gathering on the horizon, Admiral Dewey discussed several phases of the

ADMIRAL DEWEY.

He expressed himself as heartily in favor of ship subsidy legislation, and made a strong plea for the continued upbuilding of the navy.

"But the American navy is not quite so helpless as one might imagine from Mr. Landis' remarks," said the admiral. "We have fifteen colliers and several transports in the service. Of course, these would not be enough in time of war, and I hope that we will continue to add to that number. If we were to have a war we could purchase as many ships as we might need. We did so in the Spanish war."

"But there will be no war. And so long as we go ahead steadily and moderately in adding to our navy, replacing the older ships with the most modern type, thus keeping our navy abreast of the world, no one will ever be able to say, like Mr. Landis, that other nations do not regard the American navy seriously."

TAFT'S RANCH FARE

President Will Take "Pot Luck" in Texas.

Corpus Cristi, Tex., Oct. 8.—President Taft will have to take "pot luck" when he is entertained at luncheon at the ranch home of Mrs. H. M. King, of Corpus Cristi. The president's expressed preference for plain fare has prompted this decision by Mrs. King and her son-in-law, R. J. Kleberg, who manages her 1,500,000 acres. Governor and Mrs. Campbell and Charles P. Taft will also be guests at the luncheon.

Record Price For Hops

Utica, N. Y., Oct. 8.—Hop growers in central New York are obtaining unheard-of prices for this year's crop. While the hops a year ago at this time were bringing from 9 to 11 cents a pound, the growers are receiving this week from 32 to 33 1/4 cents and some choice lots have brought 35 cents. Dealers say that never in their experience were the hops bought up so close at this time of the year.

Saves Frother, Killed Himself.

Corry, Pa., Oct. 8.—Truly a heroine, Mary Cornell, seven years old, threw her brother from the Pennsylvania railroad track and was herself struck by a passenger train and instantly killed. The children were going to school. The accident happened near their home.

A Light Dinner.

"A clever criminal of gluttonous proclivities," said a prison superintendent, "once couched a complaint in rather neat terms. "My inspector, entering this man's cell one day, found it very hot and stuffy. "Why have you got your ventilator closed?" he asked. "The burly and gluttonous prisoner answered plaintively: "Well, inspector, yer honor, the last time I had the ventilator open a wasp flew in, you see, and carried off my dinner while my back was turned."

The safe, clean heating system—the one that keeps the whole house always warm, yet burns only half as much coal—is the wonderful

MODEL Heating System

Works so perfectly that a lady or a child can easily manage it. Dust-tight and makes few ashes, because it consumes less coal and burns it completely. Keeps an even warmth in every room, day and night. Steam or hot water.

LEDOM Range

Is also safe, clean, and easy to manage. Burns less coal than any range of its size, and holds the heat instead of sending it up the chimney. Has the biggest, hottest oven.

WOMAN IN TRANCE LASTING A WEEK

Doctor's Can't Revive Her and Say It's "Quiet Hysteria."

Pittsburg, Oct. 7.—A week ago Mrs. Kate Manessohn went into a trance at her home in this city, and after her condition had baffled all the physicians in the neighborhood she was removed to the Passavant hospital. She has been in a comatose state ever since, save for awakening once and looking about her, then becoming unconscious again.

Mrs. Manessohn had placed a tooth-ach remedy in an aching tooth shortly before she lapsed into a comatose condition. The physicians say the medicine had nothing to do with her odd case. They ascribe the disorder to hysteria, but it is hysteria of the quiet kind.

If the trance continues it will be necessary to operate so as to supply food directly to the stomach.

Suicide Caused Panic.

New York, Oct. 7.—F. H. Ross, formerly of San Francisco, shot himself dead as he sat at his desk in the offices of the New Mexico Development company in the financial district. Girl stenographers ran panic-stricken from the building, and when the police arrived Ross was dead, with a bullet hole in his temple. Despondency over the death of his wife and his own ill-health is supposed to have led to the suicide.

Sciatic Rheumatism

Rheuma Will Drive it Out or People's Drug Store Gives Your Money Back. Most people in Gettysburg know that Rheuma cures Rheumatism, but they don't know that it acts strongly on the kidneys and cures painful kidney trouble. If your kidneys bother you, get a bottle at once.

James R. Paige, Willink, N. Y., says: "I had been troubled with sciatic rheumatism for four years in my right hip and leg, and have used many remedies for the same. Also had kidney trouble. Nothing gave me much relief. A friend persuaded me to try Rheuma, and for two months took it as directed. I consider Rheuma the best Rheumatic remedy extant and for kidney trouble cannot be excelled."

The generous money-back offer of People's Drug Store has created a lively sale of Rheuma, and no fair-minded person who knows Rheumatic agony should hesitate a moment. A few days' use will prove its remarkable merit. Get a bottle of Rheuma before the offer is withdrawn. After the poisonous uric acid has left your system and you are painless and happy, tell all your friends. 50c a bottle. Mail orders filled by Rheuma Co., 1000 West Ave., Buffalo, N. Y.

CREATING MUCH TALK AND GREAT PRAISE

Surprising Good Being Done in This Locality

It seems that everybody is talking about Root Juice these days. The new medicine must have wonderful curative merit or so many local people would not be so enthusiastic in praise of it. When the scientist was here he said: "The reason so many people get well after taking Root Juice a few weeks is that the Juice contains in proper proportion the most soothing, healing and strengthening ingredients for the stomach, bowels, bladder, liver and kidneys known to the scientific world, by making the blood making and blood filtering organs healthy. Root Juice removes many ailments." The great remedy within the last few months has made so many remarkable cures in Indiana and Pennsylvania that it is not surprising that so many of our people are buying it. It seems to be wonderful for any trouble of the stomach, bowels, liver and kidneys and has proved its remarkable merits to scores of people here in Gettysburg for bloating, belching, constipation, sick headache and other evils of bad digestion. In rheumatic and kidney troubles, also nervousness, it is surprising how fast health is recovered under the Juice treatment.

The people at The People's drug store are well informed in relation to the merits of the remedy and have a very pleasant way in telling all they know of it. Many that took one bottle have returned for more and said that Root Juice is the most wonderful medicine on earth. It is sold during the demonstration period for \$1 a bottle or three bottles for \$2.50.

NEGRESS HAD LOST CHILD

White Baby, Rescued Almost From the Grave, Cared For Tenderly.

Denver, Colo., Oct. 7.—Marguerite Fink, the white child rescued almost from the grave and cared for during the last four years by Mrs. Marie Fink, a negress, has been given into the custody of her mother, Mrs. Charles Backoff, of Chicago.

Mrs. Backoff arrived in Denver Sunday after learning that the child whom she had mourned as dead since the time of birth was alive and had grown into a healthy, beautiful little girl.

When Judge Lindsey, in the juvenile court, gave his decision little Marguerite screamed and begged to be allowed to stay with the colored woman.

The mother is given custody of the child only as guardian and must pay the negress \$500 as recompense for the baby's keep.

Chinese Kill Two Germans.

Berlin, Oct. 7.—A dramatic narrative of the killing of Messrs. Brunhuber and Schmidt, the leaders of a German exploring expedition in China, near the Burmese frontier, some months ago, is contained in a letter from Missionary G. Monbeig. Eye-witnesses related to the missionary that the two scientists had pitched their tents on the bank of the river Salwin. Schmidt was asleep and Brunhuber was writing at a table when the natives attacked. Brunhuber arose, and as he did so a lance struck him in the breast, and he also received several saber cuts. He ran out of the tent and jumped into the river. Schmidt was killed while he was sleeping.

Buildup Attacks Child.

Shamokin, Pa., Oct. 7.—A bulldog jumped on Edna Purcell, four years old, as she walked along the street, and, upsetting her, fastened its teeth in her shoulder. The child was dragged and chewed until her face and body were a mass of wounds. Pedestrians clubbed the dog until it fled. Its victim is in a serious condition.

--don't drink DOUBTFUL Milk

Be on the safe Side

Gettysburg Ice & Storage Company Scientifically Pasteurized Milk

An un-pasteurized milk is of DOUBTFUL purity, to say the least. It costs money to properly pasteurize milk. Some dealers don't want to spend that money for their customers' protection.

The Gettysburg Ice & Storage Dairy spends it cheerfully—in its own interest and in YOURS.

Pasteurizing milk does not alter its quality—does not influence its richness—does not lessen its food value and digestibility.

Pasteurizing milk simply INSURES ITS PURITY. All milk is daily inspected upon arrival at the distributing plant and must be up to the Gettys-

burg Ice and Storage Company standard of richness, cleanness and perfect chemical constituents. It is passed through a scientific pasteurizer (we have the most perfect pasteurizer outside of Philadelphia) and then bottled direct from the pasteurizing tank and capped—making it germ proof upon delivery to the customer.

Gettysburg Ice and Storage Milk is sold only in bottles and every bottle is twice scoured, jetted with boiling water four times and steamed by a specially constructed apparatus before filling.

Gettysburg Ice and Storage Milk sells for 6c. a quart. Buying it means health protection for family and yourself.

SPITTING NUISANCE

Hawking and Spitting is Caused by Catarrh Gerns.

If the local authorities want to stop the disgusting habit of spitting mucous on the sidewalks, they had better instruct the people as to the best method of killing the catarrh germs and curing catarrh.

You can easily tell by reading the symptoms below whether you have catarrh or not.

Offensive breath, frequent sneezing, discharge from nose, stoppage of the nose, huskiness of the voice, tickling in throat, droppings in throat, a cough, pain in chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucous, difficulty in breathing, loss of vital force.

People's Drug Store has a sensible remedy (money back if it fails) for catarrh, called Hyomei, which is a vaporized air so antiseptic that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life and cures catarrh.

The price, including hard rubber inhaler, is only \$1.00, and money back if it doesn't cure. Extra bottles, 50 cents. "I have tried almost every catarrh cure on the market without benefit. Have been using Hyomei for one week and feel like a new man already."—Wm. V. Goode, Newark, Ohio, June 21, 1909

MAKES HAIR GROW

People's Drug Store Has an Invigorator that Makes Hair Grow In Abundantly or Money Back

If your hair is thinning out gradually it won't be long before the bald spot appears.

The time to take care of the hair is when you have hair to take care of. For thin falling hair the best remedy known to mankind is Parisian Sage. It is compounded on scientific principles and furnishes to the hair root a nourishment that acts quickly and promptly and causes the hair to grow.

But remember this: It kills the dandruff germ, the pest that appropriates all the natural nourishment that should go to the hair root.

Parisian Sage is sold by People's Drug Store under a positive guarantee to banish dandruff, stop falling hair and itching scalp in two weeks or money back.

It gives to women's hair a lustre and radiance that is most fascinating and causes it to grow abundantly. Parisian Sage is now sold in every first-class town in America. A large generous bottle costs 50 cents, and the girl with Auburn hair is on every bottle!

EVEN CURES ULCERS

Remarkable Results from Skin Remedy that Costs Almost Nothing.

No matter how bad a sore or ulcer afflicts you, it is said that Hokara the pure skin food will cure it. In fact if it doesn't cure, the purchase price will be refunded.

L. M. Buehler the local agent for Hokara, who has sold hundreds of packages the last few weeks, says he has yet to find any form of wound or disease affecting the skin that Hokara does not heal, and its relief is so instantaneous that those who try it are simply delighted with it.

Pimples, eczema, blackheads, acne, barber's itch, and all skin troubles are quickly cured by applying this simple skin food and tissue builder. It contains no grease or acids, and is cleanly to use.

A liberal jar costs only 25c. and ever this is returned if Hokara fails to cure.
